QUESTION 1

What happens when you try to configure the fourth member of a Cisco Unified CallManager group?

- A. Cisco Unified CallManager Administration will display an error and replace the last entered member of the Cisco Unified CallManager group with the new entry.
- B. Cisco Unified CallManager Administration will display an error message when you attempt to add the fourth member.
- C. The fourth member will be added to the sequential list.
- D. The new member will replace the first member on the list.

Correct Answer: B

QUESTION 2

When Cisco Unified Communications Manager is in a default configuration, why are all calls possible for all calling sources?

- A. Because all entities are placed in the partition and in the CSS.
- B. Because all entities are placed in the partition and the CSS.
- C. Because entities that do not have a CSS assigned can only access calling targets without a partition assigned.
- D. Because any calling target can only reach those calling sources that are in the CSS.

Correct Answer: C
