### QUESTION 1

Contoso, Ltd. acquires WingTip Toys. You manage the SharePoint farms for both organizations. The following table lists relevant information about farm indexing operations:

Farm	Indexed items	Entries per index partition	Indexes
Contoso	80 million	10 million	8
WingTip Toys	100 million	10 million	10

The content for Contoso and WingTip Toys must be indexed in the same search topology. Contoso wants to limit the number of Search Service applications and index partitions that must be deployed in the environment.

You need to configure the search topology for the Contoso farm to index content from both SharePoint farms.

In the Contoso farm, what should you do?

- A. Create 10 additional index partitions in the existing Search Service application.
- B. Create a new Search Service application, and then add 18 index partitions.
- C. Create one additional index partition in the existing Search Service application.
- D. Create a new Search Service application that indexes content from the WingTip Toys farm.

Correct Answer: A

### QUESTION 2

You administer the SharePoint2016farmfora company. Servers for the farm are distributed between the company's main office and a branch office.

You must make new custom solution packages to all SharePoint Servers in the farm.

In the table below, identify the method to use for each group of servers.

Note: Make only one selection in each column. Each correct selection is worth one point.

Hot Area:

Method	Main office	Branch office
Deploy	<input type="checkbox"/>	<input type="checkbox"/>
Publish	<input type="checkbox"/>	<input type="checkbox"/>
Upgrade	<input type="checkbox"/>	<input type="checkbox"/>

Correct Answer:

Method	Main office	Branch office
Deploy	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Publish	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Upgrade	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### QUESTION 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this sections, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are the SharePoint administrator for a company.

Users report that pages from the human resources (HR) division site are taking a long time to render.

You need to troubleshoot the reasons for the page rendering issues.

You monitor the SharePoint BLOB cache, the ASP.NET output cache, and the SharePoint object cache.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B

**QUESTION 4**

You are the system administrator for a company. The company's infrastructure includes the following:

You need to configure integration between SharePoint and Exchange to support eDiscovery.

What should you do? To answer, select the appropriate option from each list in the answer area.

### QUESTION 5

You are the SharePoint administrator for your organization. You have one web application named WebApp1 in the farm.

You need to prevent users from purchasing apps from the SharePoint Store while allowing users to request apps from the App Catalog.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

**Create an App Catalog in the farm.**

Set the value of the **Should end users be able to get Apps from the SharePoint Store** option to **No**.

**Publish the app to the catalog site.**

**Create an App Catalog site collection in WebApp1.**

Set the value of the **Should end users be able to get Apps from the SharePoint Store** option to **Yes**.

**Add the app to the catalog site.**

Correct Answer:

Empty text box

**Create an App Catalog in the farm.**

Empty text box

**Create an App Catalog site collection in WebApp1.**

**Publish the app to the catalog site.**

Set the value of the **Should end users be able to get Apps from the SharePoint Store** option to **No.**

Empty text box

Set the value of the **Should end users be able to get Apps from the SharePoint Store** option to **Yes.**

**Add the app to the catalog site.**
