### QUESTION 1

An organization deploys an Office 365 tenant.

User accounts must be synchronized to Office 365 by using the Windows Azure Active Directory Sync tool.

You have the following password policies:

\*Passwords for the on-premises Active Directory Domain Services (AD DS) user accounts are at least six characters long.

\*Passwords for Office 365 user accounts are at least eight characters long.

You need to ensure that the user accounts will be synchronized. Which user accounts will be synchronized?

- A. All user accounts
- B. No user accounts
- C. User accounts with a password length of at least 8 characters
- D. User accounts with a password length of at least 14 characters

Correct Answer: A

Password Sync is an extension to the directory synchronization implemented by the Directory Sync tool and synchronizes user passwords from your on-premises Active Directory to Azure Active Directory. When password sync is enabled, the password complexity policies configured in the on-premises Active Directory override any complexity policies that are defined in the cloud for synchronized users.

---

### QUESTION 2

You create an Office 365 tenant. You assign administrative roles to other users. You hire a new user named User2.

User2 must be able to assign administrative roles to other users.

You need to assign an administrative role to User2.

Which role should you assign?

- A. service administrator
- B. global administrator
- C. password administrator
- D. delegate administrator

Correct Answer: B

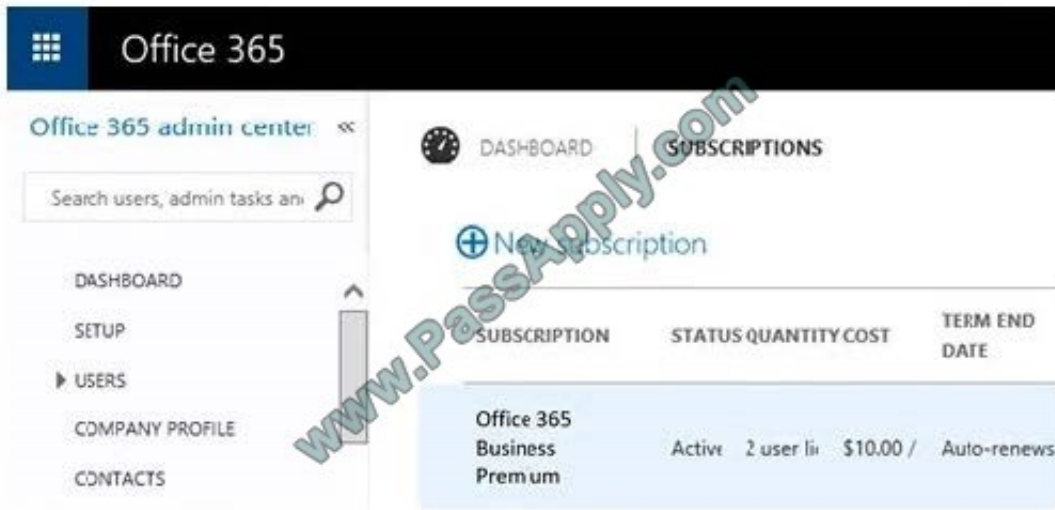

---

### QUESTION 3

HOTSPOT

You manage an Office 365 tenant. The subscription details for the tenant are displayed in the following screenshot.

Use the drop-down menus to select the answer choice that answers each question. NOTE: Each correct answer is worth one point.

- For each user, what is the maximum number of devices on which you can install Microsoft Office?
- Which services does the tenant have licensing rights to use?
- What is the maximum number of user accounts that you can create in the tenant?

Hot Area:

- For each user, what is the maximum number of devices on which you can install Microsoft Office? 
  - 0
  - 2
  - 5
  - 10
  - 20
- Which services does the tenant have licensing rights to use? 
  - Exchange only
  - Exchange and SharePoint
  - Exchange and Skype for Business
  - Exchange, SharePoint, and Yammer
  - Exchange, SharePoint, Skype for Business, and Yammer
- What is the maximum number of user accounts that you can create in the tenant? 
  - 100
  - 200
  - 300
  - 400
  - 500

Correct Answer:

For each user, what is the maximum number of devices on which you can install Microsoft Office?

0
2
5
10
20

Which services does the tenant have licensing rights to use?

Exchange only
Exchange and SharePoint
Exchange and Skype for Business
Exchange, SharePoint, and Yammer
Exchange, SharePoint, Skype for Business, and Yammer

What is the maximum number of user accounts that you can create in the tenant?

100
200
300
400
500

#### QUESTION 4

Your company has an Office 365 subscription. A user named User1 has a mailbox.

You need to ensure that all of the email messages sent and received by User1 are accessible to the audit department for 60 days, even if User1 permanently deletes the messages.

What should you do?

- A. Run the Set-MailboxDatabase cmdlet and specify the -DeletedItemRetention parameter.
- B. Run the Set-Mailbox cmdlet and specify the -LitigationHoldEnabled parameter.
- C. Run the Set-Mailbox cmdlet and specify the -SingleItemRecoveryEnabled parameter.
- D. Run the Set-MailboxDatabase cmdlet and specify the -EventHistoryRetentionPeriod parameter.

Correct Answer: B
