QUESTION 1

You need to design a solution that meets the monitoring requirements. What should you do?

- A. In Operations Manager, create an override for the HR application monitor that will close any open HR application performance tickets in Service Manager.
- B. In Service Manager, create a queue that will open a new ticket or close any existing HR application performance ticket when the performance alert has been resolved in Operations Manager.
- C. In Service Manager, create a workflow that will open a new ticket or close any existing HR application performance ticket when the performance alert has been resolved in Operations Manager.
- D. In Service Manager, create an alert routing rule in the Operations Manager Alert connector that creates a new incident when the HR application produces a performance alert.

Correct Answer: C

Scenario: You have the following monitoring requirements:

Each time HRApp1 shows performance problems, ensure that a ticket is created.

When performance problems are resolved, ensure that the ticket closes automatically.

In System Center 2012 – Service Manager, a workflow is a sequence of activities that automate a business process. Workflows can, for example, update incidents when various changes occur.

QUESTION 2

You need to recommend a design that meets the technical requirements for managing the Hyper-V hosts by using VMM. What should you recommend? To answer, select the appropriate options in the answer area.

Hot Area:

Answer Area

Minimum number of host groups in the London office:

▼
0
1
2
3
4
5

Minimum number of host groups in the Madrid office:

▼
0
1
2
3
4
5

User roles required to administer the Hyper-V hosts in each office:

▼
Application Administrator
Fabric Administrator
Read-Only Administrator
Tenant Administrator

Correct Answer:

Answer Area

Minimum number of host groups in the London office:

▼
0
1
2
3
4
5

Application Administrator
Fabric Administrator
Read-Only Administrator
Tenant Administrator

QUESTION 3

You have an Active Directory domain named adatum.com. All servers run Windows Server 2012.

You have a failover cluster named FC1 that contains two servers named Node1 and Node2. Node1 and Node 2 are connected to an iSCSI Storage Area Network (SAN).

You plan to deploy a shared folder named Share1 to FC1.

You need to recommend which cluster resource must be created to ensure that the shared folder can be accessed from both nodes of FC1 simultaneously.

What should you recommend?

- A. the clustered File Server role of the File Server for general use type
- B. the Generic Application cluster role
- C. the clustered File Server role of the File Server for scale-out application data type
- D. the DFS Namespace Server cluster role

Correct Answer: C

QUESTION 4

You have an Active Directory domain named adatum.com.

The internal network contains a Microsoft System Center 2012 infrastructure. Virtual Machine Manager (VMM) manages the virtualization hosts that run Hyper-V server, VMware ESX, and Citrix XenServer.

You plan to implement an update infrastructure to update the following: VMWare ESX Citrix XenServer System Center 2012 Windows Server 2003 Microsoft SQL Server 2008 R2 Microsoft SharePoint Server 2010

Another administrator recommends implementing a single WSUS server to manage all of the updates. You need to identify which updates can be applied by using the recommended deployment of WSUS. What three updates should you identify? Each correct answer presents part of the solution.

- A. VMWare ESX
- B. Windows Server 2003
- C. SharePoint Server 2010
- D. Citrix XenServer
- E. System Center 2012
- F. SQL Server 2008 R2

Correct Answer: BDE

QUESTION 5

You have a Hyper-V host named Server1 that runs Windows Server 2012 R2. Server1 hosts 50 virtual machines that run Windows Server 2012 R2.

Your company uses smart cards for authentication. You need to ensure that you can use smart card authentication when you connect to the virtual machine by using Virtual Machine Connection.

What should you configure?

- A. The NUMA Spanning settings
- B. The RemoteFX settings
- C. The Enhanced Session Mode Policy
- D. The Integration Services settings

Correct Answer: C
