### QUESTION 1

You need to recommend a solution to resolve the issue faced by the developers. What should you include in the recommendation?

- A. From Configuration Manager, modify the Client Policy client settings.
- B. From Configuration Manager, modify the Computer Agent client settings.
- C. From the registry, set the Manual Execution Requested value to 1.
- D. From the registry, set the Notify Only value to True.

Correct Answer: B

---

### QUESTION 2

You manage a deployment of Microsoft System Center 2012 R2 Configuration Manager for a company that has 30 global locations. Each location has a distribution point group that contains two distribution points.

Users in the research department reside in three locations only. You have a user collection that contains all of the research department users.

You need to recommend a solution for deploying applications to all of the research department users.

What is the best recommendation to achieve the goal? More than one answer choice may achieve the goal. Select the BEST answer.

- A. Distribute applications to six distribution points.
- B. Associate the collection to three distribution point groups.
- C. Distribute applications to three distribution point groups.
- D. Create three computer associations.

Correct Answer: B

---
