QUESTION 1

You have an Active Directory domain named contoso.com. You use RemoteApp to make applications available to Android and iOS users. The external DNS zone for contoso.com is shown in the exhibit. (Click the Exhibit button.)
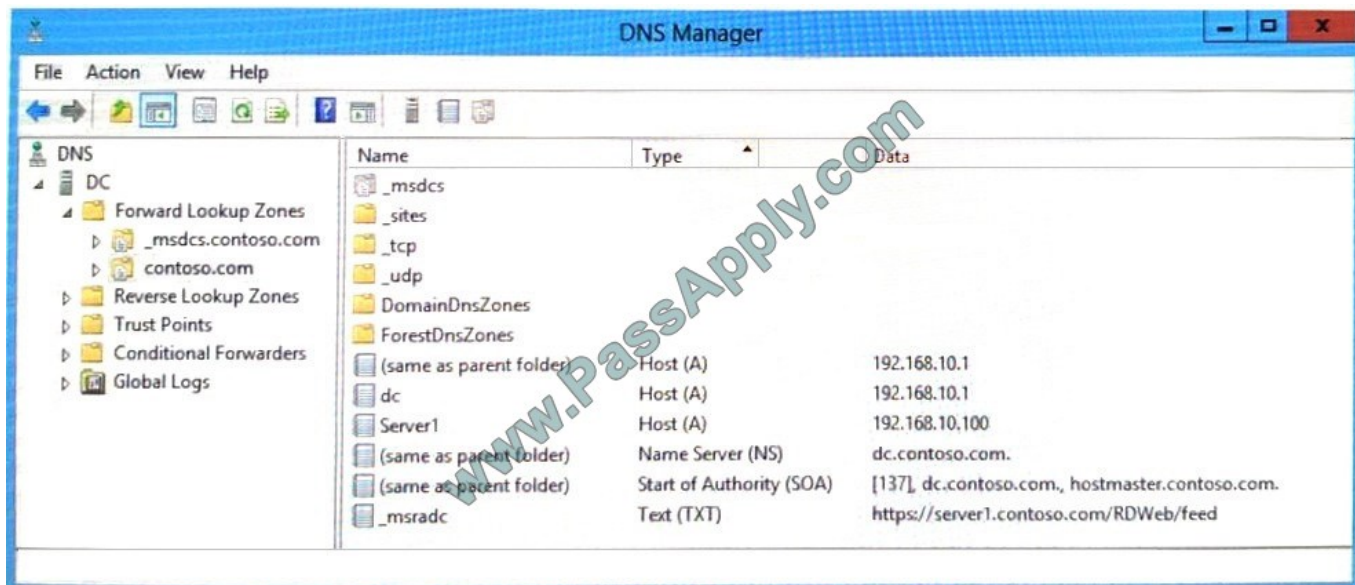

You need to provide a user with the connection URL for the Remote Desktop app on an Android device. Which connection URL should you provide?

A. https://server1.contoso.com/RDWeb/feed/webfeed.aspx

B. server1.contoso.com

C. https://server1.contoso.com/RDWeb/feed

D. _msradc.contoso.com

Correct Answer: B

QUESTION 2

You have Windows 10 Enterprise computers.

Microsoft BitLocker Administration and Monitoring (MBAM) is deployed on your network on a server named MBAM1.

Company policy requires that within 2 hours of being started, computers that have the MBAM client installed prompt users to enable BitLocker.

You need to make changes to the Configure MBAM Services Group Policy settings.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Set Select Bitlocker Recovery Information to store to Recovery password and key package.

B. Set Enter status reporting frequency (in minutes) to 120.

C. Set MBAM Status reporting endpoint to MBAM1.

D. Set Enter client checking status frequency (in minutes) to 120.

E. Set Select Bitlocker Recovery Information to store to Recovery password only.

F. Set MBAM Recovery and Hardware service endpoint to MBAM1.

Correct Answer: DF

QUESTION 3

A Windows 10 Enterprise computer has a single hard disk drive.

You add a second, unformatted, hard disk drive to the computer. You plan to provision Windows BitLocker

Drive Encryption on the second hard drive in preparation for installing an operating system on the hard drive for use in another computer.

You need to configure encryption for the new hard drive without fully completing BitLocker activation.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

Run the bcdboot command.
Run the manage-bde command.
Enable BitLocker on the new hard drive from Control Panel.
Run the BdeHdCfg command.
Use the **Disk Management** tool to enable BitLocker on the drive.
Use the **Disk Management** tool to initialize the disk.
Use the **Disk Management** tool to create a volume on the drive.

Answer Area

Correct Answer:

Actions

Enable BitLocker on the new hard drive from Control Panel.
Use the **Disk Management** tool to enable BitLocker on the drive.
Use the **Disk Management** tool to initialize the disk.

Answer Area

Use the **Disk Management** tool to create a volume on the drive.
Run the bcdboot command.
Run the BdeHdCfg command.
Run the manage-bde command.

QUESTION 4

You support Windows 10 Enterprise computers.

Your company has started testing Application Virtualization (App-V) applications on several laptops. You discover that the App-V applications are available to users even when the laptops are offline.

You need to ensure that the App-V applications are available to users only when they are connected to the company network.

What should you do?

A. Change user permissions to the App-V applications.

B. Disable the Disconnected operation mode.

C. Configure mandatory profiles for laptop users.

D. Reset the App-V client FileSystem cache.

Correct Answer: B

Disconnected operation mode is enabled by default and allows App-V applications to be available to users even when the laptops are offline. We need to disable Disconnected operation mode to prevent offline access. The disconnected operation mode settings--accessible by right-clicking the Application Virtualization node, selecting Properties, and clicking the Connectivity tab--enables the Application Virtualization Desktop Client or Client for Remote Desktop Services (formerly Terminal Services) to run applications that are stored in the file system cache of the client when the client is unable to connect to the Application Virtualization Management Server.

QUESTION 5

You are the desktop administrator for a small company.

The company modifies its policy for retaining company financial documents from six months to three years. You currently use File History, retaining files for six months and saving copies of files every 20 minutes.

You need to adjust your current backup solution to accommodate the policy change.

What should you do?

A. Set the Keep Saved Versions option in File History to Forever.

B. Set the backup solution to Recovery model.

C. Set the Save Copies of Files frequency to Daily.

D. Set the File History log file setting to Archive the log when full, do not overwrite events.

Correct Answer: A

You can select one, two years or forever; there is no option for three years. Therefore, the only option is to keep the files forever.
