QUESTION 1

You have a slow Map Reduce job.

You need to optimize the job to control the number of mapper and runner tasks.

Which function should you use?

- A. RxComputeContext
- B. RxHadoopMR
- C. rxExec
- D. RxLocalParallel

Correct Answer: C

QUESTION 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this sections, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft SQL Server instance that has R Services (In-Database) installed.

You need to monitor the R jobs that are sent to SQL Server.

Solution: You create an events trace configuration file and place the file in the same directory as the BXLServer process.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

QUESTION 3

You have an Apache Hadoop Hive data warehouse. RevoScalerR is not installed.

You need to sort the data according to the variables in the dataset.

What should you do?

- A. Connect to the database by using an ODBC connection, and then use the rxSort function.
- B. Create a table in the ORC file format.
- C. Connect to the database by using an ODBC connection, and then use the rxDataStep function.
- D. Execute a Hive query that sorts the data, and then reads the results.

Correct Answer: D

QUESTION 4

Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series.

Information and details provided in a question apply only to that question.

You need to estimate a model where the outcome variable is continuous, is in the range of $[0, \text{inf}]$, and has a substantial mass at an exact value of 0.

Which function should you use?

- A. rxPredict
- B. rxLogit
- C. summary
- D. rxLinMod
- E. rxTweedie
- F. stepAic
- G. rxTransform
- H. rxDataStep

Correct Answer: F

QUESTION 5

Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series.

Information and details provided in a question apply only to that question.

You need to generate a residual based on two columns. The solution must build a trend indicator. Which function should you use?

- A. rxPredict
- B. rxLogit

C. summary

D. rxLinMod

E. rxTweedie

F. stepAic

G. rxTransform

H. rxDataStep

Correct Answer: A
