### QUESTION 1

You need to implement the network Unlock feature to meet the BitLocker requirements.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

#### Actions

Create the Network Unlock certificate.

Deploy the private key and certificate to the Windows Deployment Server.

Configure a Group Policy in contoso.com for Network Unlock.

Install Windows Deployment Services on a new server in the contoso.com domain.

#### Answer Area

Select and Place:

#### Actions

Create the Network Unlock certificate.

Deploy the private key and certificate to the Windows Deployment Server.

Configure a Group Policy in contoso.com for Network Unlock.

Install Windows Deployment Services on a new server in the contoso.com domain.

#### Answer Area

Correct Answer:

**Actions**

**Answer Area**

Install Windows Deployment Services on a new server in the contoso.com domain.

Create the Network Unlock certificate.

Deploy the private key and certificate to the Windows Deployment Server.

Configure a Group Policy in contoso.com for Network Unlock.

**QUESTION 2**

This question consists of two statements: One is named Assertion and the other is named Reason. Both of these statements may be true; both may be false; or one may be true, while the other may be false. To answer this question, you must first evaluate whether each statement is true on its own. If both statements are true, then you must evaluate whether the Reason (the second statement) correctly explains the Assertion (the first statement). You will then select the answer from the list of answer choices that matches your evaluation of the two statements.

Assertion:

You must host the DNS zone research.contoso.com on MADSRV1.

Reason:

You must host Domain Name System Security Extensions (DNSSEC zones on Active Directory Domain Services integrated DNS servers.) Evaluate the Assertion and Reason statements and choose the correct answer option.

- A. Both the Assertion and Reason are true, and the Reason is the correct explanation for the Assertion,
- B. Both the Assertion and Reason are true, but the Reason is not the correct explanation for the Assertion.
- C. The Assertion is true, but the Reason is false.
- D. The Assertion is false, but the Reason is true.
- E. Both the Assertion and the Reason are false.

Correct Answer: C

### QUESTION 3

Your network contains an Active Directory domain. All servers run Windows Server 2012 R2. The domain contains the servers shown in the following table.

Server name	Data type
Server1	A database server that has several instances of Microsoft SQL Server 2012
Server2	A file server that stores user home folders and shared documents
Server3	A Microsoft System Center 2012 R2 Virtual Machine Manager (VMM) library server that hosts virtual hard disks (VHDs)
Server4	A Microsoft Exchange Server 2013 server that has the Mailbox server role and the Client Access server role

You need to recommend which servers will benefit most from implementing data deduplication. Which servers should you recommend?

- A. Server1 and Server2
- B. Server1 and Server3
- C. Server1 and Server4
- D. Server2 and Server3
- E. Server2 and Server4
- F. Server3 and Server4

Correct Answer: D

### QUESTION 4

Your network contains an Active Directory domain named contoso.com. The domain contains a Microsoft System Center 2012 infrastructure.

You deploy a second System Center 2012 infrastructure in a test environment. You create a service template named Templatel in both System Center 2012 infrastructures. For selfservice users, you create a service offering for Templatel. The

users create 20 instances of Templatel. You modify Templatel in the test environment. You export the service template to a file named Templatel.xml. You need to ensure that the changes to Templatel can be applied to the existing instances

in the production environment.

What should you do when you import the template?

- A. Overwrite the current service template.
- B. Change the name of the service template.

- C. Create a new service template.
- D. Change the release number of the service template.

Correct Answer: D

---

#### QUESTION 5

You need to recommend which changes must be implemented to the network before you can deploy the new web application. What should you include in the recommendation?

- A. Change the forest functional level to Windows Server 2008 R2.
- B. Upgrade the DNS servers to Windows Server 2012.
- C. Change the functional level of both the domains to Windows Server 2008 R2.
- D. Upgrade the domain controllers to Windows Server 2012.

Correct Answer: D
