QUESTION 5

Customer has changed Avaya Aura Core and the Avaya Equinox Conferencing solution domain name. As a result, new FQDNs were assigned to all solution components. New server identity certificates are now required. This customer does not use a Third-Party Certificate Authority (CA) and is not planning to. The customer is asking you if signed identity certificates can be generated internally.

What would you recommend?

- A. Use Avaya Aura Device Services (AADS) as an internal Certificate Authority (CA).
- B. A Certificate Authority (CA) is not a mandatory requirement as all Avaya Aura Core and Equinox solution components support self-signed certificates.
- C. Use Utility Services as an internal Certificate Authority (CA).
- D. Use System Manager as an internal Certificate Authority (CA).

Correct Answer: D
