QUESTION 1

Select and Place:

Put the following items into a sequence for Waterfall development.	
Design architecture and develop common modules	First
Deploy beyond pilot group	Second
Confirm Scope and Priorities	Third
Evaluate benefits from the first two groups of users	Fourth

Correct Answer:

Put the following items into a sequence for Waterfall development.	
	Confirm Scope and Priorities
	Design architecture and develop common modules
	Evaluate benefits from the first two groups of users
	Deploy beyond pilot group

QUESTION 2

You need to decide on a maintenance approach for a private cloud storage and backup solution. Which would be a good alternative?

A. Use the cloud provider, since they are the only ones with access to the data.

B. Select the option which provides the highest capacity and most bandwidth.

C. Assess options from several different providers, keeping near-term and future needs in mind.

D. Look at providers with experience in working with public cloud software applications.

Correct Answer: C

QUESTION 3

When asked about IT skills gaps, where does "Speak business language" fall in a list of concerns?

A. "Speak business language" would be helpful to improve, but not among the most critical gaps.

B. The ranking varies depending on the industry and whether the business person is new in their job.

C. "Speak business language" is consistently mentioned as a top concern for IT professionals.

D. "Speak business language" is a very low priority but moving higher because business people need to learn the terms for technologies like cloud.

Correct Answer: C

QUESTION 4

You need to evaluate a solution to improve security for access to the company intranet. Which action should be in scope of your work?

A. Read analyst reports and benchmark studies on software products.

B. Hire a consultant to assess data center physical security.

C. Arrange vendors to conduct virus detection demos for IT and business managers.

D. Ask Finance to provide a list of risks with potential value.

Correct Answer: D

QUESTION 5

The Sales leader is an important stakeholder. Why is it important to map technology capabilities to his interests?

A. To convince other people that they should care about the solution needs

B. To better understand the impact of meeting or missing a schedule deadline

C. To show how the solution may balance the interests of Sales, Marketing, and Finance

D. To count the number of features or capabilities met for each stakeholder

Correct Answer: C
