### QUESTION 1

You create a Windows Service and set its startup type to Automatic.

At which point during Windows startup does the service start running?

- A. After Windows starts and after a user logs on
- B. After Windows starts
- C. After the BIOS loads the network drivers but before Windows starts
- D. After the BIOS loads all the drivers but before Windows starts

Correct Answer: B

---

### QUESTION 2

An application uses the `Debug.Write()` method to output debugging messages. What will happen when you attempt to compile the application in Release mode?

- A. All `Debug.Write()` lines will continue to output messages to a log file.
- B. The compiler will ignore all lines that contain a call to `Debug.Write()`.
- C. The compiler will display an error for each call to `Debug.Write()`.
- D. All `Debug.Write()` lines will continue to output messages to a hidden window.

Correct Answer: B

---

### QUESTION 3

A Windows Forms project contains a form that you want to inherit from. You choose the Inherited Form template and select the base form from the Inheritance Picker dialog box.

When the new form is added to the project, none of the controls from the base form are present.

You need to ensure that the inherited controls are present on the new form.

What should you do?

- A. Rebuild the solution.
- B. Compile the solution and add a reference.
- C. Copy the controls manually.
- D. Save the form's definition as a .txt file and import the file into the new form's code.

Correct Answer: D

---

#### QUESTION 4

During debugging, the Immediate window in Visual Studio is used to:

- A. Monitor thrown exceptions.
- B. Execute expressions.
- C. Act as the standard output for the currently running program.
- D. Set breakpoints programmatically.

Correct Answer: B

---

#### QUESTION 5

You need to change the color of a form over time by using a Timer control.

Where should you add the code that starts the timer?

- A. In the form's Load event handler
- B. In the form's Render event handler
- C. In the form's base class constructor
- D. In the form's base class definition

Correct Answer: A
