QUESTION 2

This question requires that you evaluate the underlined text to determine if it is correct.

You have a Windows 8.1 computer in a WorkGroup. To share the C:\Work folder and make it available to offline users, you need to use the "public" share option. Instructions: Review the underlined text. If it makes the statement correct,

select "No change is needed". If the statement is incorrect, select the answer choice than makes the statement correct.

- A. No change is needed
- B. advanced
- C. HomeGroup
- D. basic

Correct Answer: B

In the advanced sharing dialog box Click on "Caching" button. In "Offline settings" dialog box, you can set up caching for files and programs which are offline.

You have the following options:

i) Only the files and programs that users specify are available offline: If you select this option then, users specify the files and programs which can be accessed offline. It is the default option. ii) No files or programs from the share are available

offline: If you select this option then, caching will be turned off. iii) All files and programs that users open from the share are automatically available offline: If you select this option then, caching is turned on for all files and programs and they can be accessed offline. Check option "Optimize for performance".

QUESTION 4

Which type of information about users does biometrics evaluate?

- A. phrases a user has memorized
- B. where a user is located
- C. physical characteristics of a user
- D. objects a user carries with him or her

Correct Answer: C

Biometrics refers to authentication techniques that rely on measurable physical characteristics that can be automatically checked.

Note: There are several types of biometric identification schemes: face: the analysis of facial characteristics fingerprint: the analysis of an individual's unique fingerprints hand geometry: the analysis of the shape of the hand and the length of the fingers retina: the analysis of the capillary vessels located at the back of the eye iris: the analysis of the colored ring that surrounds the eye's pupil signature: the analysis of the way a person signs his name. vein: the analysis of pattern of veins in the back of the hand and the wrist voice: the analysis of the tone, pitch, cadence and frequency of a person's voice.

QUESTION 5

Match each Microsoft cloud service to the feature it provides.

Instructions: To answer, drag the appropriate Microsoft cloud service from the column of the left to its feature on the right. Each service may be used once, more than once, or not at all. Each correct match is worth one point.

Select and Place:

Microsoft cloud service		Answer Area
SharePoint Online	virtual machines	<input type="text"/>
Microsoft Azure	video calls	<input type="text"/>
Lync Online document	library	<input type="text"/>

Correct Answer:

**Microsoft cloud service**

virtual machines

video calls

library

Answer Area

Microsoft Azure

Lync Online document

SharePoint Online

*

Microsoft Azure Virtual Machines allow you to deploy a wide range of computing solutions in an agile way. With Virtual Machines, you can deploy nearly instantaneously and you pay only by the minute.

*

Present a document online using Lync

If you have Lync installed, you can present a document in an online conversation or meeting, work with other people on it in real time, and even let someone else take control of it.

*

A library is a collection of files. In SharePoint, a library is a type of list. Each file is a content item.

Libraries have extra features, such as synchronisation, viewing/editing, or managing files.
