QUESTION 1

What is the minimum version of Internet Explorer needed to ensure that Microsoft Office 365 web-based applications have full functionality?

A. Internet Explorer 8

B. Internet Explorer 9

C. Internet Explorer 10

D. Internet Explorer 11

Correct Answer: C

Office 365 is designed to work with the current or immediately previous version of Internet Explorer. Office 365 does not offer code fixes to resolve problems you encounter when using the service with Internet Explorer 9. You should expect the quality of the user experience to diminish over time, and that many new Office 365 experiences might not work at all.

QUESTION 2

You are preparing to add your domain to Microsoft Office 365.

You need to define how you will use your domain by selecting Microsoft Exchange Online, Skype for Business Online, or a combination of these.

What is the name of this step in the setup process?

A. domain purpose

B. domain registration

C. DNS registration

D. DNS zone delegation

Correct Answer: A

QUESTION 3

You are an IT intern at Tailspin Toys.

Your manager wants to implement Microsoft Office 365. The manager also wants desktop versions of Microsoft Office applications.

Which three versions of Microsoft Office 365 provide installed desktop versions of Microsoft Office applications? Choose three.

A. Microsoft Office 365 Business Essentials

B. Microsoft Office 365 Business Premium

C. Microsoft Office 365 Enterprise E5

D. Microsoft Office 365 Enterprise E1

E. Microsoft Office 365 Enterprise E3

Correct Answer: BCE

QUESTION 4

This question requires that you evaluate the underlined text to determine if it is correct.

You need to ensure that an installation of the Microsoft Intune client displays messages during the installation process. You should run "Windows Intune Setup.exe/PrepareEnroll" from an elevated command prompt.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

A. No change is needed.

B. Windows_Intune_Setup.exe

C. Windows_Intune_Setup.exe/Extract

D. Windows_Intune_Setup.exe/Quiet

Correct Answer: B

Just use Windows_Intune_Setup.exe without any arguments and all the client messages will be displayed.

Incorrect answers:

Not A: There is a command line switch that can be used to schedule a task that will attempt to enroll the computer at a later time. This will ensure that the computer image is not enrolled before it has been deployed to the target computer. To

launch a delayed installation use the following command line argument to launch the installation:

Windows_Intune_Setup.exe /PrepareEnroll

Not C: You can use the Windows_Intune_Setup.exe /Extract command line argument on the Windows_Intune_Setup.exe file to extract both a 32 bit and 64 bit MSI package. Not D: You can use the Windows_Intune_Setup.exe/ Quiet

argument if you wish to suppress the Installation wizard and run it with no user interaction.

QUESTION 5

This question requires that you evaluate the underlined text to determine if it is correct.

As a Microsoft SharePoint administrator, you can allow users to create their own team tasks to manage their projects and related documents.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

A. page

B. No change is needed

C. sites

D. rules

Correct Answer: C
