QUESTION 1

When working with a complex After Effects composition you are using the Render Multiple Frames Simultaneously feature. After Effects posts an "Incompatible Preview mode. Multiprocessing is off." message in the Info panel and temporarily disables the Render Multiple Frames Simultaneously feature. Which After Effects feature or setting causes this message to appear in the Info panel?

- A. OpenGL previews are enabled.
- B. The Disk Cache feature is enabled.
- C. Live Update is disabled in the Timeline panel.
- D. The Segment Movie Files At setting is too high.
- E. Hardware Accelerate Composition, Layer and Footage Panels is not enabled.

Correct Answer: A

QUESTION 2

Which three formats are supported by the 3D Channel Effects? (Choose three.)

- A. MA
- B. RLA
- C. RPF
- D. PSD
- E. RAW
- F. PIC/ZPIC

Correct Answer: BCF

QUESTION 3

What are two reasons why a message would appear in the Info panel that states that After Effects is temporarily disabling Render Multiple Frames Simultaneously? (Choose two.)

- A. The project settings are set to 32bit.
- B. The composition contains a live Photoshop 3D layer.
- C. The Color Management option is set to On in the project settings.
- D. The project is set to use OpenGL for rendering of previews or final output.

E. The composition is not using one of After Effects\' built -in comp size presets.

Correct Answer: BD

QUESTION 4

When previewing an After Effects composition that contains several nested compositions, a Timeline panel different from the current Composition panel plays. What is causing this scenario?

- A. The Timeline panel is locked.
- B. The Composition panel is locked.
- C. The Maximize Frame command has been enabled for the Timeline panel.
- D. The Maximize Frame command has been enabled for the Composition panel.
- E. You have selected a nested composition in the Timeline panel with the mouse before previewing.

Correct Answer: B

QUESTION 5

Four overlapping masks with different Mask Opacity values have been created on one layer. You have applied the Lighten blending mode to each mask. What will be the result in the Layer panel?

- A. Overlapping areas will build up Mask Opacity values and clip at 100%.
- B. Only the shape with the lowest Mask Opacity value appears in the Layer panel.
- C. Only the shape with the highest Mask Opacity value appears in the Layer panel.
- D. Overlapping areas are only as opaque as the mask with the lowest Mask Opacity value.
- E. Overlapping areas are only as opaque as the mask with the highest Mask Opacity value.

Correct Answer: E
