QUESTION 1

Which statement is true about a cube with a drill through data source?

- A. The drill through data source remains in sync when performing an in-place update
- B. The drill through data source is updated by rerunning the PROC OLAP code
- C. The drill through data source can only be updated if flagged in the metadata
- D. The drill through data source is updated using a separate process

Correct Answer: B

QUESTION 2

Which SAS applications can be used to create data sources for reporting and analysis using the SAS platform applications? (Choose two.)

- A. SAS Enterprise Guide
- B. SAS Information Delivery Portal
- C. SAS Information Map Studio
- D. SAS Web Report Studio

Correct Answer: AC

QUESTION 3

While using the SAS add-in Excel, a user wants to update their prompted stored process results with new prompt values. What should the user do?

- A. Reconnect to the metadata server
- B. Reopen the workbook
- C. Use the modify button
- D. Use the refresh button

Correct Answer: D

QUESTION 4

Refer to the exhibit.

Which technique was used to produce the separate pie charts?

- A. Pie Subgroup from the Assign Data Window
- B. Multiple Pies from the Properties Window
- C. Grouped Pies from the Properties Window
- D. Horizontal Series from the Assign Data Window

Correct Answer: B

QUESTION 5

In order to create prompt, a content developer has created a "PromptBuilder" stored process. The developer uses this stored process to create prompts and prompt group then save into metadata.

A second content developer has decided to use some of the shared prompts stored in metadata in a new stored process. The second developer has realized one of the shared prompt needs to point to a more recent data source. The two developers agree the update needs to be made:

Where should the shared prompt be updated and who can make the update?

- A. In any stored process using the shared prompt, only by an unrestricted user
- B. In the metadata location where the shared prompt is stored, only by an unrestricted user
- C. In any stored process using the shared prompt, by anyone with appropriate permissions
- D. In the metadata location where the shared prompt is stored, by anyone with appropriate permissions

Correct Answer: D
