QUESTION 1

A content developer has created an interactive dashboard. In the SAS Information Delivery Portal, only a message is seen instead of a dashboard indicator. What could be the reason?

- A. Adobe Reader is not installed on the machine.
- B. Adobe Flash-Plugin is not installed on the browser.
- C. The SAS Interactive plug-in is not installed on the browser.
- D. Java is not installed on the machine.

Correct Answer: B

QUESTION 2

What is the purpose of setting SAS Web Report Studio capabilities in SAS Management Console?

- A. control access to Information Maps
- B. control member level security
- C. control creation of CSS formats for custom report styles
- D. control which application features are available

Correct Answer: D

QUESTION 3

Refer to the exhibit.

```
14 +*ProcessBody;
15 +
16 +%STPBEGIN;
17 +
18 +OPTIONS VALIDVARNAME=ANY;
19 +
20 +* End EG generated code (do not edit this line);
21 +
22 +LIBNAME OSDM META LIBRARY="Orion Reporting Library";
ERROR: No metadata objects found matching the specified URI.
ERROR: Error in the LIBNAME statement.
23 +
24 +PROC GCHART DATA=OSDM.CUSTORDERS;
ERROR: Libname OSDM is not assigned.
```

What is causing the error message from the stored process created from a SAS program, given the log displayed in the exhibit?

- A. There is no libref OSDM registered in the metadata.
- B. There is no library named Orion Reporting Library registered in the metadata.
- C. The Libname statement is not compatible with the VALIDVARNAME option.
- D. The stored process is not registered to the Orion Reporting Library in the metadata.

Correct Answer: B

QUESTION 4

In a stored process, a multiple value prompt selection named Country is used. Which macro variable can a developer use in SAS code to determine how many values the user selected?

- A. Country_COUNT
- B. Country_INDEX
- C. Country_NUM
- D. Country_NUNIQUE

Correct Answer: A

QUESTION 5

An OLAP Cube hierarchy is defined as:

- A. An organized set of categories, known as dimensions, that describes the data in a source table
- B. An organized set of NWAY crossings
- C. An organized set of numeric values that have been pre-aggregated
- D. An organized set of categories, known as levels, that describes the data in a source table

Correct Answer: A
