QUESTION 1

In the All Offenses dialog box, which column are the offenses sorted by default?

- A. Start Date
- B. Magnitude
- C. Description
- D. Offense Type

Correct Answer: B

QUESTION 2

Offenses can be exported to which two file formats? (Choose two.)

- A. RTF
- B. XML
- C. PDF
- D. CSV
- E. HTML

Correct Answer: BD

QUESTION 3

A user is complaining of slow traffic on a specific network segment. An administrator is investigating the source of the congestion using the IBM Security QRadar V7.0 MR4 (QRadar) Dashboard workspace named Top Applications. The administrator has drilled down into the details of a traffic spike and is now on the Details tab.

If the administrator double-clicks on the top application in the list, and then sorts by the Total Bytes column, what information is displayed regarding the source and destination IPs of the devices?

- A. The devices causing the least traffic for all applications
- B. The devices causing the most traffic for all applications
- C. The devices causing the least traffic for the selected application
- D. The devices causing the most traffic for the selected application

Correct Answer: D

QUESTION 4

If a user wants to search for Windows user login failures, which high/low level category should be used?

- A. Windows/Failures
- B. Authentication/Failures
- C. Windows/User Login Failures
- D. Authentication/User Login Failure

Correct Answer: D

QUESTION 5

A flow is a sequence of packets that have which common characteristics?

- A. Same source, MAC address, flow source and destination IP address
- B. Same source IP address, flow source and transport layer port information
- C. Same source and destination IP address and transport layer port information
- D. Same destination IP address, source bytes and transport layer port information

Correct Answer: C
