2.

 Business subject matter experts

3.

 BPMS Lead Developer

4.

 Project Manager

D. 1. Process Owner

2.

Quality Assurance

3.

BPMS Lead Developer

4.

Client\'s IT representative

Correct Answer: A

QUESTION 4

A BPM analyst is modeling the process for acquiring membership at a club. The analyst interviewed the front office supervisor, who provided the following description of the first activity "Enter Application": "One of our receptionists receives a paper application from the potential client, an applicant. The receptionist first looks up the client\'s name and address to see if it exists in our system, then enters the information from the paper application into the system, and assigns a membership number to the application. When the application entry is complete, the receptionist sends it to the manager for an initial review." The BPM analyst has created the discovery map in Blueworks Live and now needs to enter information from the above description into the Details fields for the activity "Enter Application". For the activity "Enter Application", what are the Inputs and Outputs?

A. Inputs: Membership Number Outputs: Application Membership Number

B. Inputs: Membership Number Outputs: Application Membership Number

C. Inputs: Membership Number Outputs: Application Membership Number Name Address

D. Inputs: Application Membership Number Name Address Outputs: Application Membership Number Name Address

E. Inputs: Application Membership Number Name Address Outputs: Application Membership Number Name Address

F. Inputs: Application Membership Number Name Address Outputs: Application Membership Number Name Address

G. Inputs: Application Membership Number Name Address Outputs: Application Membership Number Name Address

H. Inputs: Application Membership Number Name Address Outputs: Application Membership Number Name Address

Correct Answer: A

QUESTION 5

A company has multiple processes already documented in their Blueworks Live library. During process discovery on a new process, the business subject matter experts (SMEs) identify a subprocess that is exactly the same as a process

already in Blueworks Live library. How should the BPM analyst capture this requirement in Blueworks Live?

A. Use the Linked Processes feature to capture the relationship.

B. Use the Heat Mapping feature to capture the common process flows.

C. Use the Smart Folder feature to organize both processes in the same folder.

D. Copy the same Inputs, Outputs, and Participants when defining the new subprocess.

Correct Answer: A
