QUESTION 1

User Access Control can be disabled to permit the IBM Maximo Asset Management V7.5 installation to take which action?

- A. to create log files
- B. to run as administrator
- C. to update the database
- D. to update the maximo.properties file

Correct Answer: D

QUESTION 2

When reviewing customer requirements for an IBM Maximo Asset Management environment, the customer explains that they have no plans for a development or a user acceptance testing environment. What is a reason that should be given to the customer as to why they should have a development environment?

- A. Development environments always differ from production environments in the number of JVMs.
- B. Development environments typically utilize the same database server and J2EE servers as in the production environments.
- C. Development environments allow for the creation, configuration, and development of test code without compromising the integrity of the production system.
- D. Development environments must utilize the IBM Maximo Integration Framework components to export and import code and configuration changes into the production environments.

Correct Answer: C

QUESTION 3

How can IBM Maximo Asset Management user login performance be improved?

- A. set the default Start Center to one with minimal portlets
- B. minimize the number of Start Centers presented as tabs to a user at login
- C. ensure users have their own database user account used by reporting processes
- D. increase the number of roles per user to maximize the number of Start Center tabs presented at login

Correct Answer: A

QUESTION 4

What should be the determining factor in recommending either IBM WebSphere Application Server or Oracle WebLogic Server for the J2EE environment?

- A. the JDK version and vendor selected for the application environment
- B. the customer's existing J2EE environment and portfolio of J2EE applications
- C. the amount of RAM required by a given J2EE platform for 64-bit applications
- D. the selection of the application database platform and portfolio of database applications

Correct Answer: B

QUESTION 5

What is the recommended method to build a Maximo EAR file?

- A. runthebuiidear.bat from a command prompt
- B. runthebuiidmaximoear.cmd from a command prompt
- C. double-click on buiidear.bat from the IBM\SMP\maximo\deployment directory
- D. right-click on buildmaximoear.cmd from the IBM\SMP\maximo\deployment\default directory and run as administrator

Correct Answer: B
