A. build.name

B. CTGError.log

C. CTGInstallTrace.log

D. CTGInstallMessage.log

Correct Answer: C

QUESTION 2

What is required if message persistence is selected during the IBM Maximo Asset Management V7.5 (Maximo) installation?

A. an Oracle database

B. an IBM DB2 database

C. a Microsoft SQL Server database

D. a Maximo Integration Framework schema created in the Maximo database

Correct Answer: B

QUESTION 3

What are the licensing implications of using the IBM Maximo Asset Management (Maximo) supplied middleware?

A. The customer is free to use the middleware however they choose.

B. The customer is licensed to use the middleware only for the Maximo implementation.

C. The customer must contact IBM and discuss licensing for the proposed environment.

D. The customer is licensed to use the middleware as long as it is all installed on a single server.

Correct Answer: B

QUESTION 4

Which statement is true when considering IBM Maximo Asset Management V7.5 (Maximo) security options?

A. There is no dependency between Maximo authentication and Maximo authorization.

B. A LDAP capable server can be used to authenticate Maximo users, but never for group configuration.

C. If a LDAP capable server is used to authenticate Maximo users, it must also be used for authorization within Maximo.

D. Maximo user authorization is dependent upon the security settings of the application server (IBM WebSphere or WebLogic).

Correct Answer: D

QUESTION 5

Which access group is required for the IBM Maximo Asset Management V7.5 installation account?

A. users

B. remote users

C. administrators

D. backup operators

Correct Answer: C
