QUESTION 1

A work order is generated from a route and each stop on the route has a unique job plan and safety plan. Which option should be selected for: When this Route is Applied to a Work Order, the Route Stops will Become?

- A. Child Work Orders
- B. Work Order Tasks
- C. Sequenced Job Plans
- D. Entries in the Work Order's Multi Asset, Location, and CI Table

Correct Answer: A

QUESTION 2

What is the first application used to create a rotating asset?

- A. Assets application
- B. Inventory application
- C. Item Master application
- D. Asset Templates application

Correct Answer: C

QUESTION 3

A job plan is used throughout the organization and has six tasks except for one site (site A) that has an additional task. What is the best approach to accomplish this requirement?

- A. Create a job plan with the six tasks that apply to both sites. Create a nested job plan that references the unique task, designate it for site A and associate it with the first task.
- B. For the job plan or tasks, do not define an organization or site. When the work order for a site other than site A is created, delete the task which does not apply from the work order.
- C. For the job plan or the six tasks that apply to both sites, do not define an organization or site. For the additional task that is specific for site A, designate the site ID for that task as site A.
- D. Two job plans are needed: one that is designated as site A at the job plan level and has the seven appropriate job tasks for that site, and one without a defined site for the six job tasks appropriate for the remaining sites.

Correct Answer: C

QUESTION 4

What are two valid options for route stops? (Choose two.)

- A. Meters
- B. Assets
- C. Locations
- D. Configuration Item Records
- E. Condition Monitoring Points

Correct Answer: BC

QUESTION 5

What is the purpose of a connecting line in a workflow process?

- A. To change the status of a node
- B. To branch to a workflow process
- C. To move from one node to another
- D. To identify who a workflow assignment will route to

Correct Answer: C
