Correct Answer: B

QUESTION 5

It has been decided that the telnet tool should only be applied to syslog events and only accessed by the sysadmin group (which already exists).

How can this be achieved through the Tool Builder?

- A. Find the Access tab and select sysadmin and syslog Probe under Group and Class.
- B. Modify the telnet tool to use a script which checks user credentials before running the telnet tool.
- C. Find the Access tab and delete all groups except sysadmin and all classes except syslog Probe.

D. Delete the telnet tool and create a new tool which uses a telnet executable on a server only the sysadmin group has rights to.

Correct Answer: A
