QUESTION 1

An editable report has been created with the name triPeople - triRetired - Editable. The report designer wants to allow the user to be able to unretire multiple records. The designer has properly set the query to be editable and has selected the proper state. When the designer goes to the query's Advanced tab to set the actions that will be available to the user, he finds that option is not available. What could be the problem?

- A. The report has been created from the My Reports Tab.
- B. There are no editable fields in the triRetired state so no actions are allowed.
- C. The query is of type Report. Queries of type Report cannot be made editable.
- D. The record is not editable for that state so no actions are available from the editable query.

Correct Answer: A

QUESTION 2

An editable query has been created with the name triPeople - triRetired - Editable. The query designer wants to allow the user to be able to unretire multiple records. When the designer goes to set the state in the editable query she does not see the option to set this property. What could be the problem?

- A. The developer has not set the editable property to Yes.
- B. The query type has been set to Report. This type of query is not editable.
- C. There are no editable fields in the triRetired state so this state is excluded.
- D. The record has been set to be uneditable in the triRetired state, so an editable query cannot be created

Correct Answer: A

QUESTION 3

What is the purpose of a group override?

- A. To change a navigation item to a group-specific target
- B. To change a portal section to a secondary portal type
- C. To change a navigation portal section to a specific portal target
- D. To change a navigation item so it can be added as related links

Correct Answer: A

QUESTION 4

Which statement is true about how association filters may be used in queries/reports?

- A. They cannot be used if using system filters.
- B. They can filter based on an association to a fixed record
- C. They cannot be used if using a runtime filter against a field.
- D. They can filter based on an association determined at runtime by user input.

Correct Answer: B

QUESTION 5

Where is a user's new login portal set?

- A. User's profile
- B. User's preferences
- C. User's security group
- D. User's organization profile

Correct Answer: A
