QUESTION 1

When replacing a database design, what does the "Hide formulas and LotusScript" option do?

- A. Hides the design of all elements from the user.
- B. Prevents the user from running agents in debug mode only.
- C. Hides the design of formula and LotusScript agents only from the user.
- D. Removes the source code of all agents and script libraries from the database.

Correct Answer: A

QUESTION 2

Adrian is an administrator of an IBM Domino server and has setup IBM Notes Smart Upgrade. How can he monitor who has upgraded along with any failures?

- A. by using the event logs in the main server log
- B. by using the Smart Upgrade Event Log application
- C. by using the logs in the Smart Upgrade application
- D. by using the Smart Upgrade Tracking Reports application

Correct Answer: D

QUESTION 3

What document can be used to allow IBM Domino to receive e-mail addressed to more than one SMTP domain?

- A. Internet Site document
- B. Global Domain document
- C. Adjacent Domain document
- D. Foreign SMTP Domain document

Correct Answer: B

QUESTION 4

Josh has been asked to rename a user as well as changing the user's Internet address. Which statement is true?

- A. Josh will need to use the Address Change procedure to change only the Internet address after the rename procedure is completed.

B. When a user is renamed, Josh cannot change the user's Internet address as part of a change to the user's common or alternate name.

C. When a user is renamed, Josh can change the user's Internet address as part of a change to the user's common or alternate name, but he cannot use this rename procedure to change only the Internet address.

D. When a user is renamed, not only can Josh change the user's Internet address as part of a change to the user's common or alternate name, but he can also use this rename procedure to change only the Internet address.

Correct Answer: C

QUESTION 5
