QUESTION 1

The ID vault may be replicated to other Domino servers. You initiate the request to create a new vault replica utilizing the ID Vaults - Manage tool. When is the vault replica created?

- A. Immediately
- B. At the server's next scheduled replication
- C. After the Administration Process request is approved
- D. After the vault administrator approves the emailed vault creation request

Correct Answer: A

QUESTION 2

Upon viewing the Administration Process activity through the statistics generated during administration request processing, you have found a large number of waiting statistics in one of the message queues. Which of the following would this signify?

- A. Administration Process threads are waiting for requests to process
- B. The administrator has pending Administration Process requests for approval
- C. The server is processing requests without utilizing all the process handlers
- D. The request processing threads are busy running requests that take long times

Correct Answer: D

QUESTION 3

As a vault administrator, you have the rights to delete the ID vault. Before deleting a vault configuration, which of the following steps must be performed?

- A. Extract all user ID files from the vault and then delete the ID vault
- B. Delete all documents in the ID vault, delete the user policy then delete the ID vault
- C. Delete all replicas except the one on the vault primary server first, then delete the primary
- D. Remove all ID vault administrators from the vault ACL, remove the vault user policy and delete the ID vault

Correct Answer: C

QUESTION 4

You have elected to create a marker so clients can update their reference to a database called MARKETING.NSF.

However, you did not select a designated destination server. Which of the following is the result of this action?

- A. The client will remove the bookmark reference for the database
- B. The client will search all servers in the domain for a replica of the database and modify the bookmark
- C. The client will search all known cluster servers only for a replica of the database and modify the bookmark
- D. The client will prompt the user to specify servers to search for a replica of the database and modify the bookmark

Correct Answer: A

QUESTION 5

After DAOS is enabled and functioning on your Domino server, which of the following occurs when a recipient opens a document with an attachment that is in the DAOS repository?

- A. Attachment icons display with a link icon over the attachment icon
- B. Attachment icons display a doclink to the attachment stored in DAOS
- C. Attachment icons display the same as it would on a server without DAOS enabled
- D. Attachment icons do not show and they are replaced with text that describes the attachment and is linked to the attachment

Correct Answer: C
