#### QUESTION 1

Mary is posting a discussion database on the Web. She would like to give general users Author access to the database, as long as they identify themselves and have registered with her site. Which one of the following should Mary do to ensure that all users accessing her database are identified and have Author access?

- A. Create an Authors field on her forms and set it to Anonymous.
- B. Set the database ACL Default entry to No Access and set the Anonymous to Author.
- C. Set the database ACL Default entry to Author and set the Anonymous to No Access.
- D. Set the form security property, "Who can create documents with this form", to only allow users in the Author role.

Correct Answer: C

---

#### QUESTION 2

What best describes a theme for an XPage application?

- A. A theme is a collection of CSS files.
- B. A theme is a collection of Dojo modules that are used for the XPages application.
- C. A theme is a collection of JavaScript resource files that are used to implement the user interface.
- D. All of the above can be included in themes.

Correct Answer: D

---

#### QUESTION 3

Donna wants to navigate to a panel in her XPage. Which area would she use?

- A. The Applications view
- B. The Outline view
- C. The Properties view
- D. The Controls view

Correct Answer: B

---

#### QUESTION 4

Gustav has added a View control to his XPage. He needs to allow users to delete documents from the view. How can he do this task?

- A. Add a button with a simple action defined to Delete Selected Documents.
- B. Enable the Column Display property check box and the View property Allow Deletion.
- C. Enable the Column Display property check box and add a button with a simple action defined to Delete Selected Documents.
- D. Enable the Column Display property check box, and add a button with server-side JavaScript in the button's onclick event that uses the @Function script library to execute @Command [(DeleteDocument)].

Correct Answer: C

---

#### QUESTION 5

Sonia has been asked to rewrite her company's "Careers" Domino Web site using XPages. One of the benefits expected from the new development is better response time for the users. What is one reason why XPages may offer better performance versus earlier Domino Web sites?

- A. XPages are based on JSPs, which are faster than Domino HTML rendering.
- B. XPages are AJAX-enabled, which can offer response time improvements due to partial page refreshes.
- C. XPages avoid formula language, thereby saving the time incurred by the formula parser on the server.
- D. The custom controls that ship with XPages provide optimized widgets that may perform better than those developers could produce on their own.

Correct Answer: B
