QUESTION 1

In which two of the following options should the Content Consistency Checker be used?

- A. If search templates aren't working.
- B. After restoring a storage area from backup media.
- C. To troubleshoot Fixed Content Device connectivity.
- D. If the IBM FileNet Content Platform Engine is performing slow.
- E. When users are unable to view the content of a document stored in a file storage area, even when they have view-content permissions on the document.

Correct Answer: BE

QUESTION 2

A feature Pack has been applied to a Content Platform Engine (CPE).

What must be done once the Feature Pack has been installed?

- A. The CPE application must be restarted.
- B. Nothing, does not affect CPE deployment.
- C. The CPE archive file needs to be redeployed.
- D. The JVM, hosting the CPE, must be restarted.

Correct Answer: A

Stop all WebSphere Application Server nodes where Content Platform Engine has been deployed, including the Deployment Manager node if one exists.

QUESTION 3

If a user is a member of more than one access role, and the access roles have conflicting allow and deny access rights, which of the following will occur?

- A. The user is allowed access.
- B. The user is NOT allowed access.
- C. The access will be determined by the object store access.
- D. The user is allowed only if they are a member of one of the default access roles.

Correct Answer: A

QUESTION 4

A document entry template can be designed to allow end users to provide their own values for which of the following?

- A. Document properties and security settings.
- B. Document properties, but not security settings.
- C. Security settings, but not document properties.
- D. Document properties, security settings, and the document class.

Correct Answer: A

QUESTION 5

A developer is creating entry templates to make it easy to add documents, folders, and custom objects to an object store.

Document entry templates allow the designer to force values for which of the following items?

- A. Location, class, properties, and security
- B. Class, properties, security, but not location
- C. Location, class, properties, but not security
- D. Location, class, security, but not properties

Correct Answer: A
