- D. Event Frame Entity Representation

Correct Answer: D

---

### QUESTION 5

An analyst is importing telephone data to Analyst's Notebook. The analyst uses one of the columns as the identity of a phone, and a yellow triangle appears in several rows where the telephone number is missing. Which of the following actions at the Assign Column step will allow valid telephone data to be imported into Analyst's Notebook?

- A. The telephone data needs to be removed from the identity.
- B. Parenthesis and dashes need to be added to the phone numbers.
- C. The telephone data needs to be moved into the representation field.
- D. Nothing needs to be done; only valid telephone entities will be created.

Correct Answer: D
