### QUESTION 1

An administrator has applied the Security Profiles to the SecurityPEP node, and the Security Profiles are configured by the administrator at deployment time. What methods can the administrator use to modify and enable newly created Security Profiles prior to deployment?

- A. mqsichangeproperties
- B. mqsicreateconfigurablesevice
- C. mqsimodifyconfigurablesevice
- D. mqsichangeconfigurablesevice
- E. BAR file editor in the WebSphere Message Broker toolkit

Correct Answer: BE

---

### QUESTION 2

A company needs to charge the customer based on the usage of its particular message flow on a broker. How can the administrator implement this?

- A. Enable application logging.
- B. Ask the customer for their usage report on a weekly basis.
- C. Use accounting and statistics from the broker.
- D. Use a network gateway to assemble statistics on usage by customer.

Correct Answer: C

---

### QUESTION 3

A company has a business scenario whereby a request on their application has to pass through various vendors to generate a response. Each vendor invocation results in a message response which comes in different formats (SWIFT, XML, SEPA). The final response to the initial request has to be sent in EDIFACT format to the end client. What is the recommended way for implementation?

- A. Implement selective aggregation on the vendors\' messages at the application layer.
- B. Implement transformation and aggregation of the vendors\' responses in WebSphere Message Broker.
- C. Implement transformation of each vendor\'s message to XML at the application layer and send to client for aggregation.
- D. Implement business logic on the vendor component to send response in XML format to the WebSphere Message Broker.

Correct Answer: B

---

#### QUESTION 4

An administrator needs to update an existing Problem Management Record (PMR) with specific technical information. How can the administrator perform this activity in the least amount of steps?

- A. Use IBM Electronic Service Agent to update the PMR.
- B. Log into the Passport Advantage web page and update the PMR.
- C. Log into the Electronic Service Request (ESR/SR) tool and update the PMR.
- D. Contact IBM Support by phone using your region-specific telephone number.

Correct Answer: C

---

#### QUESTION 5

An administrator needs to install service updates to the WebSphere Message Broker V 7.0 toolkit. What should the administrator use to do this?

- A. IBM Support Center
- B. IBM Software Support
- C. IBM Support Assistant
- D. IBM Installation Manager

Correct Answer: D
