Correct Answer: D

QUESTION 3

A hybrid mobile application named App1 is failing to connect to the Worklight Server with the following error code: "Application Error - The connection to the server was unsuccessful" Knowing that the application should be available at "http://srv.ent.com:9099/wl" but without any access to the Worklight Console, how can the support engineer ensure that the application App1 has been properly deployed?

- A. Query the is-alive URL at "http://srv.ent.com:9099/wl/ws/rest/vitality?app=App1"
- B. Query the preview URL at "http://srv.ent.com:9099/wl/apps/services/preview/App1/App1.html"
- C. Invoke the Worklight Server Mobile Browser Simulator at "http://srv.ent.com:9099/wl/_MobileBrowserSimulator/index.html?app=App1"
- D. Use a remote debugging tool such as Weinre or iWebInspector to inspect the request to the application\'s init resource

at "http://srv.ent.com:9099/wl/apps/services/api/App1/common/init"

Correct Answer: A

**QUESTION 4**

Where should the icons used for the Windows application bar be placed?

- A. windowsphone/images
- B. windowsphone/resources/applicationBar
- C. windowsphone/applicationBarImages
- D. windowsphone/resources/icons

Correct Answer: D

QUESTION 5

A developer is writing a Worklight mobile application to run on Android and iOS platforms. The developer is using the Apache Cordova device.platform API in the code to identify the device's platform type. Which additional step, if any, should the developer perform before building and deploying the application to successfully use the Apache Cordova API?

- A. Set the element to true in the application's descriptor file to indicate the use of Cordova.
- B. Copy the cordova.jar library file to the project's server folder to make it available to the application at run-time.
- C. No additional step is required since the Cordova framework is automatically added into Worklight iOS and Android projects.
- D. Add a element to the application's main HTML file to include the cordova.js JavaScript file that defines the API functions.

Correct Answer: C
