QUESTION 1

A developer suspects there is a problem in JAX-B serialization in the client side. Which tool can be used to test the Web Services by bypassing JAXB?

A. WSDL Explorer

B. TCP/IP Monitor

C. Generated Test JSP Client

D. Universal Test Client (UTC)

Correct Answer: C

QUESTION 2

For a Web service request passing through multiple SOAP intermediaries, how would end- to-end security be provided?

A. SSL

B. Mutual Authentication

C. WS-Security standards

D. HTTP Basic Authentication

Correct Answer: C

QUESTION 3

What is the biggest advantage of using Web services to create SOA solutions?

A. They are implemented using Java and XML

B. They support a client-server programming model

C. They are used to create tightly coupled applications

D. They are implemented using standardized technologies

Correct Answer: D

QUESTION 4

Refer to the exhibit.

```
package test;
import javax.jws.WebService;
@WebService
public class Book {
        public String getIsbn() {
                return "2009-EEE-121212";
        }
}
```

Using the JavaBean in Exhibit 1, the developer runs the following: wsgen -class path .\classes wsdl test.BookWhat artifacts are generated when the command completes?

A. GetIsbn.class, GetIsbnResponse.class

B. GetIsbnRequest.class, GetIsbnResponse.class

C. BookService.wsdl, GetIsbnRequest.class, GetIsbnResponse.class

D. BookService_schema1.xsd, BookService.wsdl, GetIsbn.class, GetIsbnResponse.class

E. BookService_schema1.xsd, BookService.wsdl, GetIsbnRequest.class,GetIsbnResponse.class

Correct Answer: D

QUESTION 5

A developer has finished working on the implementation of a Web service using IBM Rational Application Developer V7.5. What are the appropriate ways to create a policy set with just an LTPA token?

A. Use the Policy Set editor in IBM Rational Application Developer V7.5 to create a new policy set with an LTPA token

B. Use the Administrative Console to create a new policy set with an LTPA token, export it and import into IBM Rational Application Developer V7.5

C. Make a copy of the "LTPA WSSecurity default" policy set in IBM Rational Application Developer V7.5 workspace and use the policy set editor to disable WS-Security protection in the copy.

D. Make a copy of the "LTPA WSSecurity default" policy set using wsadmin scripts and disable WS-Security protection in the copy, export the copy and import into IBM Rational Application Developer V7.5

E. Make a copy of the "LTPA WSSecurity default" policy set using Administrative Console and disable WS-Security protection in the copy, export the copy and import into IBM Rational Application Developer V7.5

Correct Answer: BDE
