QUESTION 1

Which CA eHealth Report will display details of individual elements on separate pages?

- A. TopN
- B. Trend
- C. At-a-Glance
- D. Service Level

Correct Answer: A

QUESTION 2

As the administrator of a CA eHealth system, you have scheduled and successfully tested a database backup plan. You know that other files, such as all web users, report files, and poller.cfg, will be saved. When you reload the database, all of those files will also be loaded into their proper locations. During a database load, what happens to the web users that you created since the last backup?

- A. They will be retained.
- B. They will no longer be present.
- C. They will be available for reload if you ran the nhExportV\vebUser command.
- D. They will be automatically added to the backup files when the dbMaint command runs.

Correct Answer: B

QUESTION 3

How do you add additional licenses to CA eHealth?

- A. Use the Motif console.
- B. Edit the license.dat file.
- C. Run the nhConfig utility.
- D. Use OneClick for eHealth.

Correct Answer: B

QUESTION 4

Before you can run custom Health and Service Level Reports, you need to make sure that: (Choose four)

- A. Report log files have been updated.
- B. Service Profiles have been configured.
- C. Groups and Groups Lists are populated.
- D. User Permissions have been configured.
- E. The Database is set up and is operational.
- F. Correct report definitions have been created.

Correct Answer: BCDE
