QUESTION 1

When you build the CA IdentityMinder environment, you can configure support for public tasks. To do this, you specify a:

- A. group and a name.
- B. URL alias and a user.
- C. directory and a task list.
- D. role definition file and a default role.

Correct Answer: B

QUESTION 2

You are setting up the Bulk Load Client to perform a complete dump of all HR users into CA IdentityMinder. You want to avoid a problem you encountered previously when a large number of records processed overloaded the server. Which command-line option addresses this issue?

- A. imbulkloadclient -T, --transformOnly
- B. imbulkloadclient -b, --batchSize
- C. imbulkloadclient -i, --inputFile
- D. imbulkloadclient -e, --endpointInfoFile

Correct Answer: B

QUESTION 3

Which statement about capability attributes is TRUE?

- A. They represent information initially set for an account.
- B. They are internal read-onlyProvisioning Server attributes.
- C. They are italicized on account property sheets for easy identification.
- D. They represent account information such as storage size, quantity, frequency limits, or group memberships.

Correct Answer: D

QUESTION 4

Which statement about Task Execution Web Services (TEWS) is TRUE?

- A. Its interface is slower than the native web interface due to XML parsing.
- B. It enables a CA SiteMinder Policy Server to support CA Identity Minder.
- C. It is used by CA IdentityMinder to export data to CA GovernanceMinder.
- D. It translates requests into the internal languages of the provisioning software.

Correct Answer: A

QUESTION 5

You are deploying CA IdentityMinder on a 64-bit Windows system. Before you configure Active Directory password synchronization, you want to make sure that you meet the twin goals of maximizing security and minimizing synchronization issues. Which guideline should you follow?

- A. Configure CA IdentityMinder to check the history of recent changes to passwords.
- B. Enable CA SiteMinder rules to override rules in other accounts by configuring eta_pwdsync.conf.
- C. Make sure that the CA IdentityMinder password policy is stricter than the password policy of the endpoints.
- D. Use the 32-bit Password Synchronization Agent on 64-bit systems that require Federal Information Processing Standards (FIPS).

Correct Answer: C
