#### QUESTION 1

You are installing the Data Repository in a clustered configuration. What is the minimum number of hosts that you can use for your cluster?

- A. Two
- B. Three
- C. Four
- D. Five

Correct Answer: B

---

#### QUESTION 2

When planning menus for dashboards, which guideline should you follow?

- A. Never add custom dashboards to a default menu.
- B. Share custom menus between tenants with similar needs.
- C. Use the Manage Menus page to organize dashboards in a meaningful way.
- D. If specific dashboards should not be available to a user, add them to a menu as a dimmed menu item.

Correct Answer: C

---

#### QUESTION 3

- A. Help icons bring you to the correct section of the online help.
- B. Information on users and roles is available in the Data Aggregator guide only.
- C. Online help is solely accessible from the Help link in the upper-right corner of the CA Performance Center UI.
- D. The administration guides might save you time when you are attempting an unfamiliar administrative operation.

Correct Answer: AD

---

#### QUESTION 4

To help ensure that CA Performance Center operations run smoothly, which guidelines should you follow? (Choose three)

- A. Check log files daily or at least weekly.
- B. Purge log files manually every two weeks to avoid performance and space issues.

- C. Test the Vertica database for consistency at least once a week using DBVisualizer.
- D. Only change logging levels in the log4j.xml files for a service if advised to do so by CA Technologies support.
- E. If you have access to the CA Performance Center server, run the grep-i command with the appropriate keyword to search multiple log files for error instances.

Correct Answer: ADE

---

#### QUESTION 5

Which benefits does CA Performance Management scalability provide to an organization? (Choose two)

- A. The Vertica database can scale to 32 terabytes and beyond.
- B. Using fewer physical servers means that the administrative burden is lessened.
- C. A three-node database cluster enables you to scale to a maximum of 500,000 managed devices.
- D. A shared Oracle installation means that you can co-locate the CA Performance Management database with other databases.

Correct Answer: AB
