QUESTION 1

An organization is implementing SAP ERP and several company codes have been defined.

The requirement for those company codes is to have a common cost center hierarchy for consolidated cost reporting.

What needs to be set as the "first" prerequisite to meet this requirement?

A. All the company codes should have the same currency and fiscal year variant.

B. All the companies should have the same chart of accounts.

C. All the company codes should be assigned to one controlling area.

D. All the company codes should be assigned to one group of companies.

Correct Answer: B

QUESTION 2

When using assessments to allocate costs from one cost centre to another, what is used to track the movement from sender to receiver?

A. Activity types

B. Profit and loss accounts

C. Secondary cost elements

D. Primary cost elements

Correct Answer: C

QUESTION 3

Which currency types are available for budgeting on internal orders? (Choose three)

A. Controlling area currency

B. Object currency

C. Company code currency

D. Freely-definable currency

E. Transaction currency

Correct Answer: ABD

QUESTION 4

What advantages do CO cost object hierarchies provide? (Choose two)

A. They enable extensive reporting for various management levels

B. They simplify CO master data maintenance

C. They facilitate assignments for internal cost allocations

D. They allow posting for corporate costs at a summarized level of the hierarchy

Correct Answer: AC

QUESTION 5

The Power list provides a general overview of your work environment and the related business objects like sales orders, billing documents, or stock items.

With Power lists, users can perform their business tasks quicker, and business processes become faster as a result.

What are the characteristics of a Power list? (Choose three)

A. The Power list consists of tabs, and each tab contains a different query.

B. It is not possible to set a filter within a data table in the Power list.

C. The layout of the Power list can be personalized by choosing Settings and determining which columns are shown and how many rows are displayed.

D. A new Power list can be created directly using the SAP NetWeaver Business Client (NWBC).

E. The Power list can be divided in two areas: the Query area and the List area.

Correct Answer: ACE
