QUESTION 1

During the preparation phase, you create a project charter and define project standards and procedures. These elements give the project manager the authority to conduct a project within scope, quality, time, and cost and resource constraints.

Which approach would you recommend for scope change requests?

A. Since the project is a fixed scope project, reject all scope change requests.

B. Only accept scope change requests after integration and acceptance tests.

C. Collect scope change requests and hand them over to development immediately.

D. Document scope change requests according to the change requests plan and decide on realization.

Correct Answer: D
