QUESTION 1

When maintaining a work center, formulas can be assigned in the scheduling view. Formulas use formula parameters for calculation.

What can be the origin of the formula parameters used for scheduling? (Choose three)

- A. Standard values in the operations of routings
- B. General operation values of routings
- C. General values from work scheduling view of the material master
- D. User-defined fields in the operation of routings
- E. General item values of bill of materials

Correct Answer: ABD

QUESTION 2

You select the master data for production orders via production versions.

Which information is contained in a production version?

- A. The control parameters for selecting routings and BOM
- B. The default order type to be used
- C. The routing and BOM alternatives to be used
- D. The explosion dates for the routing and BOM

Correct Answer: C

QUESTION 3

You want to create a new material with the following properties: the material is kept in stock, is externally procured, and is used as a component in the bills of material for various final products.

The material must not be sold directly.

Which standard SAP material type do you use?

- A. HAWA (trading good)
- B. ROH (raw material)
- C. NLAG (non-stock material)
- D. FERT (finished product)

Correct Answer: B

QUESTION 4

Which of the following activities within the KANBAN procedure normally triggers subsequent stock posting of the goods receipt?

- A. Set "Container in transport"
- B. Set "Container empty"
- C. Set "Container full"
- D. Set "Container in process"

Correct Answer: C

QUESTION 5

Which issue can occur if the lot size-dependent in-house production time in the material master is not updated after changing the routing?

- A. Lead time scheduling cannot take place.
- B. Requirements planning creates an appropriate exception message in basic dates scheduling.
- C. Subsequent capacity planning is no longer possible due to the obsolete scheduling parameters.
- D. Dependent requirements request the components from the bill of materials at wrong times when using basic dates scheduling.

Correct Answer: D
