Following Questions and Answers are all new published by SpringSource Official Exam Center

QUESTION 1

Which statement concerning Aspect Oriented Programming (AOP) is true (Select one)

A. AOP modularizes cross-cutting concerns

B. Spring AOP implements aspects using the Proxy pattern

C. Three of the advice types are "before", "after" and "around"

D. All of the above

Correct Answer: D

QUESTION 2

Consider the following complete configuration sample:

Which of the following statements is true? (Select one)

A. This configuration is correct

B. This configuration is not valid because the first bean should have an id. Its value should be "rewardNetwork".

C. This configuration is not valid because the second bean should have an id. Its value should be "accountRepository".

D. Both (b) and (c)

Correct Answer: C

QUESTION 3

Assuming a web application context name of "rewardsonline", a servlet mapping of "/admin/*", and an incoming URL of "/rewarsdonline/admin/accounts/show", what is the URL used for Spring MVC request-mapping purposes? (select one)

A. /rewardsonline/admin/accounts/show

B. /admin/acounts/show

C. /accounts/show

D. /show

Correct Answer: C

QUESTION 4

Which of the following statements is NOT true about advice types (select one)

A. The Before advice method is able to obtain information about the target method\\\'s return type

B. The After advice method is able to obtain information about the target method\\\'s return type

C. The Before advice method is able to obtain the target method\\\'s return value

D. The After advice method is able to obtain the target method\\\'s return value

Correct Answer: C

QUESTION 5

Consider the following code sample which creates an ApplicationContext from a file called "applicationconfig.xml" in the "rewards.internal" package, and a file called test-infra-config.xml in the current folder: ApplicationContext context = new FileSystemXmlApplicationContext ("classpath:rewards.internal.application-config.xml", "file:test-infra-config.xml"); Which of those statements is true? (select one)

A. The use of the "file" prefix is not necessary

B. The use of the "classpath" prefix is not necessary

C. The use of the "." separator is correct

D. Both a and b

Correct Answer: A
