QUESTION 1

A large enterprise is in the process of converting to a virtual data center as a first step toward cloud computing.

They want the ability to deploy, manage, and decommission infrastructure components in a timely manner to meet their business requirements, with minimal impact to their systems administration staff.

What should be implemented?

A. Centralized resource pooling and management

B. Configuration management

C. Self-service request automation

D. Policy-driven configuration management

Correct Answer: C

QUESTION 2

A company has two data centers located 150 km apart, with FC-connected hosts and storage at both locations. You have been asked to design a stretched cluster environment for a new hypervisor deployment.

Which distance networking technology should you specify?

A. DWDM

B. CWDM

C. Dark Fiber

D. MPLS

Correct Answer: A

QUESTION 3

A VDC environment is to be deployed with several virtual machines (VMs). The data stores for the VMs will be hosted on a storage array-based local replication that has been proposed as the BC/DR solution. Restore granularity is at the individual VM level.

What is the optimal data layout to meet this requirement?

A. Individual LUNs for each virtual disk

B. All virtual disks on the boot LUN of the physical disks

C. Individual LUNS for each VMS virtual disk

D. Single large LUN for all VM virtual disks

Correct Answer: C

QUESTION 4

A customer is determining whether the risk involved in migrating in-house data to a third- party cloud provider is acceptable.

Which step should be performed after the initial evaluation of the asset?

A. Run a full risk assessment

B. Leverage standards to mitigate risks

C. Run a second asset evaluation

D. Deploy the environment

Correct Answer: B

QUESTION 5

A customer has two data centers located within 3 km of each other. They use EMC arrays at one of the data center. They would like to have a consistent view of one or more LUNs.

Which product would you suggest to them?

A. Atoms

B. Vblock

C. VPLEX

D. VNX

Correct Answer: C
