QUESTION 1

Which is a valid method for modifying an application environment to support more clients and increased data throughput?

- A. Migrate the application from NL SAS to SAS storage
- B. Migrate the application from SSD to SAS storage
- C. Vertically scale by adding more nodes to support the application
- D. Horizontally scale by increasing system resources on the same number of nodes

Correct Answer: A

QUESTION 2

You are creating dimension classifications for applications. You are considering attributes such as data size, availability requirements, RTO/RPO, compute resources, management method, and access.

What is the goal of this analysis?

- A. Standardization
- B. Flexibility
- C. Granularity
- D. Modularity

Correct Answer: A

QUESTION 3

A large company has multiple data centers with heterogeneous arrays of various sizes at each site. Some arrays are reaching maximum utilization, and other arrays are underutilized.

Which storage virtualization method would enable them to improve overall utilization across sites?

- A. Flash drive cache tiering
- B. Horizontal storage tiering
- C. Vertical storage tiering
- D. Server-based storage tiering

Correct Answer: B

**QUESTION 4**

A VDC environment is to be deployed with several virtual machines (VMs). The data stores for the VMs will be hosted on a storage array-based local replication that has been proposed as the BC/DR solution. Restore granularity is at the individual VM level.

What is the optimal data layout to meet this requirement?

- A. Individual LUNs for each virtual disk
- B. All virtual disks on the boot LUN of the physical disks
- C. Individual LUNS for each VMS virtual disk
- D. Single large LUN for all VM virtual disks

Correct Answer: C

QUESTION 5

A company has asked you to develop a framework for assuring trust in the VDC. An assessment methodology is to be part of the framework.

Where should you look first for assessment criteria and methodologies?

- A. Company mandate documents
- B. International standards bodies
- C. Internal IT department
- D. Industry best practices

Correct Answer: B
