QUESTION 1

You are trying to create a virtual network device in Unisphere under Settings > Network > Settings for File > Devices > Create.

Why is the physical device not displayed?

- A. The device is already used.
- B. You do not have permission to create devices.
- C. The physical device is faulted.
- D. There is no network cable plugged into the physical device.

Correct Answer: A

QUESTION 2

What are characteristics of VNX Host Encryption?

- A. Software-based Allows the user to select which data to encrypt
- B. Hardware-based Allows the user to select which data to encrypt
- C. Software-based Encrypts all data stored on the VNX by default
- D. Hardware-based Encrypts all data stored on the VNX by default

Correct Answer: A

QUESTION 3

A customer has an environment consisting of 25 classic LUNs of 100 GB each that hold data from a custom application, and 15 thick LUNs of 50 GB each that are used for a database application. Free disk space on the system amounts to 800 GB.

The customer runs a scan of the classic LUNs each night to check for data corruption. The application must be shut down in order to run the scan. Scans are taking too long to run, and production is affected. The customer asks for a solution to the problem.

What should you propose?

- A. Create VNX Snapshots of the LUNs, and run the scan against the Snapshots
- B. Create SnapView Snapshots of the LUNs, and run the scan against the Snapshots
- C. Clone each of the application LUNs each evening, and run the scan against the Clones
- D. Clone each of the application LUNs each morning, and run the scan against the Clones

Correct Answer: B

QUESTION 4

Which protocol does VNX support for encrypted network management activities?

- A. SSH
- B. PKI
- C. IPSec
- D. LDAP

Correct Answer: A

QUESTION 5

A FAST VP Pool is configured with:

- 1,000 GB of Flash drives
- 5,000 GB of SAS drives
- 25,000 GB of NL-SAS drives

Four thick LUNs of 2,000 GB each are created at 30-minute intervals with default configuration parameters. How will data be distributed initially on the fourth LUN that is created?

- A. 0 GB on the Flash drives 0 GB on the SAS drives 2,000 GB on the NL-SAS drives
- B. 80 GB on the Flash drives 320 GB on the SAS drives 1,600 on the NL-SAS drives
- C. 250 GB on the Flash drives 1,250 GB on the SAS drives 500 GB on the NL-SAS drives
- D. 666 GB on the Flash drives 666 GB on the SAS drives 668 GB on the NL-SAS drives

Correct Answer: A
