QUESTION 1

An administrator has configured an Action in RES Workspace Manager that contains the following Items: TEST1=1 TEST2=2 TEST3=3

Building Block "Z" contains the following settings: TEST 1 = NEW 1 TEST2=NEW 2 TEST 4= NEW 4

What is the BEST way to Import this Building Block with new settings while preserving the TEST3 setting?

- A. Import the Building Block and select "Merge".
- B. Add the TEST3 setting to the Building Block and import it.
- C. Create a Building Block of all settings, Import Building Block 2" and re-Import the settings using the Building Block.
- D. Create a Building Block of the TEST3 setting, import Building Block 2" and re-Import the TEST3 setting using the Building Block.

Correct Answer: A

QUESTION 2

Scope Control is used to

- A. Configure to which users a certain application is available.
- B. Configure to which users a certain Action setting is applied.
- C. Define which nodes are available to a user with access to a certain Administrative Role.
- D. Define which Workspace Manager objects are available to a user with access to a certain Administrative Role.

Correct Answer: D

QUESTION 3

What is an advantage of a Relay Server?

- A. It allows RES Workspace Manager to use the IP address of the originating client to resolve Zones.
- B. RES Workspace Manager will not try to verify whether a server in an UNC path can be reached.
- C. Agents that connect to Relay Servers do not need to have a database driver installed.
- D. It makes it possible to split your existing RES Workspace Manager Datastore to a primary and secondary location.

Correct Answer: C

QUESTION 4

An administrator has configured User Settings for a specific application to track registry and files. At application level, the User Setting is enabled. Start tracking changes is configured to track changes immediately.

However, no changes are being preserved for users of the application. Which of the following could be the cause of this problem?

1.
Sampling mode is disabled.
 2.
User Settings is disabled at global level.
 3.
"Preserve" and "Apply" are both checked.
 4.
"Allow users to restore their own settings" is disabled.
- A. 1 and 2 only
- B. 3 only
- C. 2 only
- D. 4 only

Correct Answer: C

QUESTION 5

Is it necessary to set the Applications Security in Learning mode when an administrator adds a new application to the environment?

- A. No, it is possible to only enable Learning mode for the specific application.
- B. No, executables launched by the new application will be allowed automatically.
- C. Yes, to fine-tune your application the environment needs to be put in Learning mode.
- D. Yes, otherwise you will not be able to run the newly installed application.

Correct Answer: A
