QUESTION 1

What is the effect of changing the 'Run Workspace Composer' setting from manual to automatic for an Agent in Administration > Agents?

- A. That cannot be done, as the Administration node is read-only.
- B. Users on that machine will get the RES Workspace Manager Shell instead of the Windows Shell.
- C. The RES Workspace Composer will be installed automatically on that Agent.
- D. The RES Workspace Composer will be started automatically for every user that logs on to that machine.

Correct Answer: D

QUESTION 2

By applying an Exclusive Filter in the RES Workspace Manager Console, which objects are displayed?

- A. Only objects that do NOT match the specified Filter criteria.
- B. Only objects that match the specified Filter criteria directly.
- C. All objects, but objects that do not directly match the specified Filter criteria appear read-only.
- D. All objects, and objects that directly match the specified Filter criteria have an icon indicating they can be modified.

Correct Answer: B

QUESTION 3

With application license control enabled for all applications, where can an administrator find a detailed report on application license usage?

- A. In Usage Tracking
- B. In Instant Reports
- C. In Modification Log
- D. In Workspace Analysis

Correct Answer: A

QUESTION 4

What happens with the old RES Workspace Manager Environment Password when an administrator sets a new one?

- A. The old password will be honored during a grace period of 30 days.

- B. The old password will be stored in the passwords, old file.
- C. The old password will be destroyed immediately.
- D. The old password can be restored with the license node.

Correct Answer: A

QUESTION 5

You want to protect your Relay Server against unauthorized Agent connections. How can that be done?

- A. Configure an Administrative Role without access to the Relay Servers.
- B. Enforce protocol encryption between the Relay Server and the Agents.
- C. Configure an environment password for the Relay Servers.
- D. Create a Scope without access to the Relay Servers.

Correct Answer: C
