### QUESTION 1

See the decision and test situations below:

$R = (A \text{ AND } B) \text{ OR } C$

|           |         |         |
|-----------|---------|---------|
| 1.A=false | B=true  | C=false |
| 2.A=false | B=false | C=true  |
| 3.A=true  | B=true  | C=false |

Which test situation is missing if the coverage type decision points modified condition/decision coverage is used?

A. 

|        |        |        |
|--------|--------|--------|
| A=true | B=true | C=true |
|--------|--------|--------|

B. 

|        |         |         |
|--------|---------|---------|
| A=true | B=false | C=false |
|--------|---------|---------|

A. Option A

B. Option B

Correct Answer: B

---

### QUESTION 2

What strongly benefits the quality characteristic 'testability'?

A. the ease of operation of the system by the end-users

B. the ease with which an interface can be created with another information system

C. the ease with which the information system can be placed and maintained in an operational condition

D. having a regression test and other testware

Correct Answer: D

---

### QUESTION 3

See the specification of a discount campaign below:

|   |                |
|---|----------------|
| Children younger than 4 years of age (<4)                           | : free         |
| Children of 4 years or older, but younger than 13 years(>4 and <13) | : 50% discount |
| Adults older than 64 years (>64)                                    | : 50% discount |

How many equivalence classes can be distinguished from the above specification?

- A. 3
- B. 4
- C. 5

Correct Answer: B

**QUESTION 4**

See the specification below in which a decision point is described:

R = (D OR E) AND F

Use of the coverage type decision points modified condition/decision coverage produces the following table with test situations:

| R = (D OR E) AND F | 1              | 0              |
|--------------------|----------------|----------------|
| D                  | <del>101</del> | <del>001</del> |
| E                  | .              | 001            |
| F                  | 101            | 100            |

Which values are missing where the dots are stated (? to make the table complete?

- A. 010
- B. 011
- C. 110
- D. 111

Correct Answer: B

**QUESTION 5**

A structured testing approach is characterized by:

- providing concrete footholds

-covering the full scope and describing the complete range of relevant aspects

-

providing a structure, so that it is clear what exactly by whom, when and in what sequence has to be done What is the fourth characteristic?

A.

it delivers insight into and advice on any risks in respect of the quality of the tested system managing test activities in the context of time, money and quality

B.

C.

the testing is on the critical path of the total development, as briefly as possible, so that the total lead time of development is shortened

D.

to find defects at an early stage

Correct Answer: B
