- C. Brute force
- D. Ping flood attack

Correct Answer: A

QUESTION 2

Which security control is primarily concerned with reducing the cyber risk introduced by employees and other insiders within the organization?

- A. Incident handling
- B. Vulnerability scanning
- C. Threat intelligence
- D. Configuration management
- E. Security awareness

Correct Answer: C

QUESTION 3

You are responsible for security at a company that uses a lot of Web applications. You are most concerned about flaws in those applications allowing some attacker to get into your network. What method would be best for finding such flaws?

- A. Automated penetration testing
- B. Code review
- C. Manual penetration testing
- D. Vulnerability scanning

Correct Answer: D

QUESTION 4

Maria has been recently appointed as a Network Administrator in Gentech Inc. She has been tasked to perform network security testing to find out the vulnerabilities and shortcomings of the present network infrastructure. Which of the following testing approaches will she apply to accomplish this task?

- A. Black-box testing
- B. White-box testing
- C. Unit testing
- D. Gray-box testing

Correct Answer: A

QUESTION 5

Mark works as a Network Administrator for NetTech Inc. The company has a Windows Server 2008 domain based network. The network contains four Windows Server 2008 member servers with different roles and 120 Windows Vista client computers. Mark has implemented a Streaming Media Services server on the network. Users complain that they are unable to view the contents when using their Windows Media Players. Mark investigates and finds that the firewall only allows ports 80 and 443 for traffic. Mark wants to ensure that the users can view the contents. What will Mark do to accomplish the task?

- A. Configure firewall to allow port 110
- B. Re-install Windows Media player on the users' computers
- C. Configure firewall to allow port 25
- D. Enable HTTP Streaming

Correct Answer: D
