QUESTION 1

Which statement about B-series (Brocade) and M-series (McDATA) fabric switches is true?

- A. B-series fabric switches require a license to increase the buffer-to-buffer credits while M-series do not.
- B. B-series and M-series fabric switches do NOT require a license to increase the buffer-to-buffer credits.
- C. B-series and M-series fabric switches require a license to increase the buffer-to-buffer credits.
- D. M-series fabric switches require a license to increase the buffer-to-buffer credits while B-series do not.

Correct Answer: A

QUESTION 2

What is the result of merging a zoned fabric with a non-zoned fabric?

- A. Devices that were in the non-zoned fabric are not accessible until they are added into the current enabled configuration.
- B. Devices in the fabric are not accessible until the devices in the non-zoned fabric are zoned and made part of the effective configuration.
- C. Any devices that were in the non-zoned fabric are automatically configured into a new zone as part of the effective configuration so they can function.
- D. The fabrics do not merge. They segment and require manual intervention.

Correct Answer: A

QUESTION 3

You have four 16-port switches in a small topology using the mesh configuration, with three ISLs going to each adjacent switch. What is the available number of user ports?

- A. 64
- B. 52
- C. 40
- D. 61

Correct Answer: B

QUESTION 4

What are the business benefits of a SAN infrastructure?

- A. reducing staff skills across distributed geographical locations
- B. adaptability to meet changing business requirements allowing faster application deployment
- C. reducing Total Cost of Ownership (TCO) by eliminating staff associated with SANs
- D. reducing Total Cost of Ownership (TCO) by hiring staff for management tasks

Correct Answer: B

QUESTION 5

A business continuity strategy for the protection of data can be built on techniques and procedures to _____. (Choose two.)

- A. avoid data loss
- B. recover data that has been lost
- C. shrink the backup and recovery window
- D. provide Hierarchical Storage Management (HSM)

Correct Answer: AB
