- A. Fibre Channel network
- B. storage area network
- C. direct-attached storage
- D. network-attached storage

Correct Answer: D

QUESTION 4

An alternative energy company was founded in 2003 by a joint venture of two regional energy companies in the United States. They focused on engineering solutions for the solar energy sector. Since 2010, they have offered operational

services, including billing and financial services, for solar power plants. The acquisition of companies related to this sector is a future strategy to raise their market share. Moreover, in 2012 the company established a branch office in Europe to take part in the extensive European market growth.

A new storage solution is being designed for the company's central organization. Which questions should the IT manager be asked to verify that the proposed solution will cover the business needs when acquiring new companies? (Select two.)

- A. Which requirements must be met today, in three months, and in six months?
- B. How do you expect business to grow in the near future?
- C. How does the user define performance?
- D. Which criteria must be met for fault tolerance and recovery time?
- E. Is the intended use of the solution processor intensive?

Correct Answer: AC

QUESTION 5

Which statement is true regarding the unique benefits of the HP StoreOnce Catalyst?

- A. HP StoreOnce Catalyst provides federated deduplication across all HP StoreOnce Backup systems with HP Data Protector 6.21.
- B. Clients can deduplicate data on application servers or backup servers before it is transferred to a centralized HP StoreOnce Backup system
- C. Deduplication may occur on the media servers or backup servers before it is transferred to a centralized HP StoreOnce Backup system
- D. There is no rehydration of data between any of the HP backup platforms.

Correct Answer: B
