QUESTION 1

You are upgrading the iLO 4 firmware and the flash fails. What is the next step?

- A. Retry the flash before rebooting the server or iLO.
- B. ~~to reboot so that you can revert to the original version.~~
- C. Pull the power cord to abort upgrade and revert to the original version.
- D. Reboot the server and re-enter the iLO update to force the update.

Correct Answer: A

If this error occurs, click the Clear Error button to reset the flash process, and then try the firmware update again with the correct firmware file. If you do not clear the error, the same error might occur even when you use the correct firmware file.

QUESTION 2

You are designing a new multi-site data center. A key requirement for storage is to start with a small solution and include the ability to increase capacity and performance as needed. Which storage solution has the opportunity to start with 2 nodes, scaling up to 32 nodes as a single solution?

- A. HP 3PAR T800/P10000
- B. HP P2000
- C. HP P6000 EVA
- D. HP P4000

Correct Answer: D

QUESTION 3

A customer has a c7000 with 12 BL460c servers running approximately 100 virtual servers. What does HP require for the customer to use Insight Remote Support?

- A. Insight Remote Support Standard installed on a dedicated server
- B. Internet connection and Insight Manager installed
- C. Proactive Select support contract and Insight Remote Support Advanced installed on a dedicated server
- D. Active support contract and Insight Remote Support Advanced installed

Correct Answer: A

QUESTION 4

Which Windows performance counter can be used to check for a Smart Array disk bottleneck problem?

- A. Logical Disk: Average Disk Queue Length
- B. Physical Disk: Average Disk Queue length
- C. Logical Disk: Average Disk Write Queue Length
- D. Physical Disk: Average Disk Write Queue Length

Correct Answer: B

QUESTION 5

You are working with a customer who is planning to run critical applications on VMware virtual machines. A secondary data center is planned that will be used as a backup center in case of a disaster. Which product should you include in your proposal to satisfy the disaster recovery requirement for this solution?

- A. Site Recovery Manager
- B. Insight Control server migration
- C. vCenter Server Virtual Appliance
- D. Logical Server Migration

Correct Answer: A

<http://www.vmware.com/products/site-recovery-manager/>
