QUESTION 1

You are discussing solutions with a customer who wants to use Peer Motion on the HP 3PAR StoreServ 7400. The customer inquires about the specific requirements and limitations of this solution. What should you tell them to consider?

- A. A maximum of 150 Peer Motion migration tasks can be created by PMM, but only nine of them run in parallel; the task moves region by region.
- B. The destination array requires two free FC ports for Peer Motion: one port in peer mode to connect to the source array and one to connect to the host that owns the VLUNs that will be migrated.
- C. Volumes in a 3PAR domain on the source array will be placed in the same domain on the destination array
- D. Peer Motion acts as a host-based volume-mirroring solution and requires a license installed on the source and on the destination array.

Correct Answer: B

QUESTION 2

Your customer wants you to install the latest patch to their existing HP 3PAR StoreServ 7200 OS. Which steps should you perform before you install the new patch? (Select three.)

- A. Verify that the SP meets the requirements for installing the patch.
- B. Upgrade the CLI to the latest version.
- C. Stage the patch on the SP
- D. Review the patch details and prerequisites.
- E. Verify the patch check-sum using the Package Deployment Manager.

- F. Stop all basic SP processes

Correct Answer: CDE

QUESTION 3

Which situation prevents you from using SmartStart to install an HP 3PAR StoreServ 7000 system at a customer site?

- A. DHCP is not running in the customer environment
- B. The customer will not allow remote access of the Service Processor
- C. The controller nodes and the service processor are connected to the same network.

D. All the customer servers are running Windows 2008 R2.

Correct Answer: D

QUESTION 4

What must you consider when preparing an HP 3PAR StoreServ system for a first-time installation?

- A. The HP 3PAR SmartStart DVD has to be used to set up the storage system for the first time.
- B. The 60-days-Instant-On licenses have to be generated before the storage system is set up.
- C. The Virtual Service Processor has to be in place to set up the HP 3PAR StoreServ storage system
- D. The system has two serial numbers, and the 3PAR serial number is used during system setup

Correct Answer: A

QUESTION 5

You are running the SmartStart Installation procedure to install an HP StoreServ 7400 Storage System. Which users, created during the installation process, will have access to this storage system? (Select two.)

- A. 3paradm
- B. 3parcust
- C. 3parAO
- D. 3parSP
- E. 3PARrm

Correct Answer: AB
