QUESTION 1

How does HP Software address the challenges of delivering applications that meet the needs of a business?

- A. Island Approach and Unified Solution for Applications
- B. Convergent Approach and Unified Solution for Applications
- C. Island Approach, Point Tools, and Brute Force
- D. Convergent Approach, Point Tools, and Brute Force

Correct Answer: A

QUESTION 2

Which statement best describes the licensing model used in HP ALM security solutions?

- A. HP Software Security Center solutions use a "High-water mark of past use" license model where usage fees are calculated based on the maximum number of concurrent users in a defined past time period (typically monthly).
- B. All HP Software Security Center solutions are server-based and use a concurrent user network licensing model.
- C. HP Software Security Center solutions support a variety of flexible licensing options, including single "named" user, node-locked and concurrent "floating" user licenses, which are valid for a fixed period and annually renewable.
- D. HP Software Security Center solutions use pay-per-use license fees and are based on actual usage.

Correct Answer: B
